CAREER OBJECTIVE

Interested in **Full Stack Java Web Development with an M.Sc. IMCA (Industrial Mathematics with Computer Applications)**. Seeking to join a company where I can apply my skills and grow as a developer.

PROJECTS

1. Sketch Booking Application (Console-Based Application)

A user-friendly application designed to book custom sketches and artwork from artists. Built using **Spring Boot**, it streamlines the process of selecting, ordering, and managing artistic services, ensuring an engaging and efficient experience for users and artists alike.

Technologies Used:

- Backend:** Spring Boot, Spring Data JPA, Hibernate, Railway
- Frontend:** React JS, HTML, CSS, Vercel
- Database:** MySQL
- Security:** Spring Security with JWT for authentication.
- Other Tools:** Maven for build automation.

2. Library Management System (Console-Based Application)

A console-based Library Management System that allows users to manage books efficiently. The system leverages Java's JDBC to interact with a relational database for CRUD (Create, Read, Update, Delete) operations on book records.

Technologies Used: Java, JDBC, MySQL.

Tools: IDE (Eclipse), MySQL Workbench

3. Personal Portfolio Website

Designed and developed a fully responsive personal portfolio website using **React.js** to showcase skills, projects, certifications, and contact information.

Technologies Used:

React JS, HTML, CSS, Javascript, Bootstrap, Font Awesome, Vercel.

4. Food Site

The Food Website is a responsive site built with HTML, CSS, and Bootstrap to showcase food items in a user-friendly layout, ideal for restaurants, food bloggers, and delivery services to display their menus.

Technologies Used: HTML, CSS, Bootstrap, Font Awesome
